EVERYDAY MASTERPIECE

An old soul, a modern styling. The veins and fascination of marble are unchanged; what changes is the space, which is more modern and releases the creative identity of the material through a contemporary perspective. Eight colours, two surfaces (natural and polished) available in various sizes elegantly emphasise the designs, establishing an inseparable bond between styling and architecture.

SIDDHARTH®

Kerastone

Stone talk features the authenticity and the ability to pick up and focus on the most surprising details of stone working, able to illustrate and enhance the physical side of a work of architecture: concrete, essential, functional. Each process transforms the stone, making it ideal for different uses.

Eye-catching looks for an elegantly complex design. A homage to a material with significant history, reinvented with a decidedly contemporary feel, which leaves its mark indelibly, bringing style to the most varied and demanding contemporary design settings.

The various that make up the collection capture all the splendor of real marble, highlighting one of the wonders offered by nature and provoking at the very first sight the same strong emotional impact experienced.
